Neal and Craft.

The case of Neal and Craft the Ashland murderers which has been before the Court of Appeals for a week or more past has not yet been decided. What the result will be is thus foreshadowed by a correspondent of the Catlettsburg Democrat who writes from Frankfort.

Mr. Zach. Smith, of Lexington, is here to appear for them. The impression here is that the Court of Appeals will reverse the case vs. Neal and Craft. These conclusions are drawn from intimation thrown out by the Court during the argument of the case to-day. One member of the Court said he was apposed to affirming the finding of a jury inflicting the death penalty where the feeling against the prisoners in the community where they were tried was such as to require the presence of soldiers to protect them from mob violence. The decision in the case will not be rendered for a few days, but I am satisfied the result will be a reversal.

A Reformer's Opinion Concerning Mixed Schools.

From the Maysville Republican.

Though the public schools of Kentucky are legally open to white and black children the colored people show no disposition to take advantage of that circumstance to force themselves into the schools from which they have heretofore been excluded. They have more sense and more forbearance than their bourbon neighbors. They know that such action on their part would stir up bad blood and result in breaking up entirely the public schools of the State. They, therefore, ask for that which they have a right to take.

If a colored child were to make application for admission to one of the schools now set apart for white children, and if the trustees refused to admit the child, and if suit were brought against the trustees, and if they were made to pay a good round sum for so excluding the child, and if, after all, the child would be admitted, what would be the effect? Would not the public school system be broke up and wouldn't the colored children get all the benefit of the school fund? And who would be responsible? The Democratic Legislature is responsible to-day for that state of affairs which makes mixed schools the only legal schools in Kentucky. This is true.

PILES! PILES! PILES!

A Sure Cure Found at Last—No One Need Suffer!

A sure cure for blind, bleeding, itching and ulcerated piles has been discovered by Dr. William, (an Indian remedy,) called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of twenty-five or thirty years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions instruments and electrics do more harm than good. Williams' Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed,) acts as a poultice, gives instant and painless relief, and is prepared only for piles, itching of the private parts, and nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. Williams' Pile Ointment; I have used scores of pile cures, and it affords me pleasure to say that I have never found anything which gave me such immediate and permanent relief as Dr. Williams' Indian Ointment.

Dr. Frazier's Root Bitters.

Frazier's Root Bitters are not a dram-shop whisky beverage, but are strictly medicinal in every sense. They act strongly upon the liver and kidneys, keep the bowels open and regular, make the weak strong, heal the lungs, build up the nerves and cleanse the blood and system of every impurity.

For dizziness, rush of blood to the head tending to apoplexy, dyspepsia, fever and ague, dropsy, pimples and blotches, scrofulous humors and sores, tetter, ring worm, white swelling, erysipelas, sore eyes and for young men suffering from weakness or debility caused from imprudence, and to females in delicate health, Frazier's Root Bitters are especially recommended.

Dr. Frazier: I have used two bottles of your Root Bitters for dyspepsia, dizziness, weakness and kidney disease, and they did me more good than the doctors and all the medicine I ever used. From the first dose I took I began to mend, and I am now in perfect health, and feel as well as I ever did. I consider your medicine one of the greatest blessings.

BATCHELDER'S Ventilated Egg Case.

Patented February 15, 1881.

Indispensable to Merchants Shippers And Producers.

The outside frame of this carrier contains five trays, held in place by fasteners at end of case, as seen in cut. These Trays are constructed in reversible halves. The above cut shows one whole tray filled ready to be placed in case, each egg resting in its cardboard socket in such a manner as to be readily counted, candied, or transferred from tray to tray, or case to case, without rehandling.

For cold storage this case will store 60 dozen with racks made to receive the half trays, hence this is the cheapest storage case manufactured, saving largely in space.

The manner of holding the eggs on end prevents oscillation, adding, or breakage, and adds greatly to their freshness when carried long in storage. Size of 30 dozen No. 1 cases 25x12x14, weighs 20 pounds.
